Skills

HTML : Structuring pages with tags.

CSS : Styling elements with animations, transitions, and SVG. Using Bootstrap.

PHP : Validating, filtering, and securing HTML form data, sorting various arrays, and executing SQL queries. Beginner level with Symfony.

JAVASCRIPT : Modifying the DOM, handling user events, creating objects, and manipulating various types of arrays. Knowledge and use of frameworks like React/Next and Vue.

JAVA : Creating classes and objects, using inheritance and polymorphism, controlling flow with loops, conditions, and exceptions.

SQL : Manipulating databases: insertion, deletion, updating, retrieving, and joining multiple tables.

PYTHON : Manipulating data for analysis, file management, using Django.

DEVELOPMENT TOOLS : VSCode, Git/Github, Android Studio

LANGUAGES : French (Fluent), English (Intermediate), Spanish (Intermediate)

Goals

Passionate about web and mobile development, my goal is to refine my technical skills in order to create high-performance applications that meet user needs. I aim to deepen my expertise in modern frameworks and software architecture to tackle increasingly complex challenges, both independently and as part of a team, while contributing to the development of digital solutions that simplify users' daily lives. With this in mind, I'm seeking a 4-month internship to apply my knowledge, contribute to real-world projects, and continue growing in a dynamic and stimulating environment.

Education

BACHELOR'S DEGREE IN COMPUTER SCIENCE

Université d'Angers, ANGERS (49100)

SINCE 2022

BACHELOR'S DEGREE IN MATHEMATICS

Université d'Angers, ANGERS (49100)
